Physics Learning Center
Peer Mentor Tutor Program
Job Opportunity

The PLC is looking for undergraduates to work as Peer Mentor Tutors to help students in introductory physics (103, 104, 207, and 208).

Applicants should have a desire to help others learn physics and enthusiasm for learning new ways to solve physics problems.

Applicants from all majors are welcome!

What you would do:
• Facilitate a Learning Team twice weekly.
• Help students build a conceptual framework to solve a variety of physics problems.
• Attend weekly training sessions on both teaching technique and the relevant physics.

So, what’s in it for you?
• It is rewarding to help others learn physics.
• You will gain experience with teaching and public speaking.
• Join a community of peers interested in science teaching.
• Learn physics through teaching! It will help you prepare for the GRE, MCAT, etc.
• It is a paid position that requires about 7–8 hours per week.

To apply, submit the following by Monday, April 13 (later is fine, but let us know ASAP if you’re planning to apply) to plc@physics.wisc.edu:
• An application cover page (available on the PLC website or via email).
• A transcript (unofficial is fine).
• A current résumé.
• A brief letter describing your interest (1/2–1 page).

More information about applying:
• When you register for fall classes, keep Mon 4:30–5:25 PM and Wed 5:15–6:15 PM open for weekly meetings. If this is not possible, please contact us ASAP.
• The PLC is a diverse community dedicated to building equity and opportunity for all. We welcome applicants with a broad range of experiences. Women, racial and ethnic minorities, people with disabilities, and those with other identities underrepresented in STEM and higher education are encouraged to apply.

Learn more and meet some current tutors!
5:45 pm Mon April 6 in BBCollaborate Ultra. To get the link, email plc@physics.wisc.edu

We look forward to hearing from you!
