**Refereed Publications**
(journal publications and refereed contributions to books)

14. “Spectrum of Resistivity-Gradient-Driven Turbulence”, P.W. Terry, P.H. Diamond, 

Fluids 29, 2758 (1986).

16. “Self Consistency Constraints on Turbulent Magnetic Transport and Relaxation in a 
57, 1899 (1986).

17. “Role of Impurity Dynamics in Resistivity-Gradient-Driven-Turbulence and 

18. “Particle and Thermal Transport, and Resonant Field Experiments in TEXT”, A.J. 
Wootton, R.D. Bengtson, et al., Plasma Physics and Controlled Nuclear Fusion 

19. “Nonlinear Ion Temperature-Gradient-Driven Instability in Low-Collisionality 
(1988).

20. Comment on “Anomalous Electron Heat Transport Driven by Low-Frequency 

21. “Saturation of Kelvin-Helmholtz Fluctuations in a Sheared Magnetic Field”, Bruce 

22. “Theory of Ion Temperature-Gradient-Driven-Turbulence and Transport in Low 

23. “Radial Fluctuation Scale of Ion Temperature Gradient Driven Turbulence”, P.W. 

3, p. 369.

156. “Overview of Results from the MST Reversed Field Pinch Experiment”, J.S. Sarff, et al., submitted to Nuclear Fusion.

*These papers are peer reviewed nationally by a DOE-appointed panel, and internationally by a panel appointed by the International Atomic Energy Agency.
