Monday, February 8th, 2010

Physics/ECE/NE 922 (Plasma) Seminar: Nonlinear Evolution of Resistive Tearing Mode with Sub-Alfvenic Shear Flow

Time & Place: 12:05 pm, 2241 Chamberlin Hall
Speaker: Zheiwei Ma, Zhejiang University

Plasma Theory Seminar: An Update on Two-fluid Single-Helicity Tearing Mode Relaxation in a Cylindrical Pinch: Larger Lindquist Number and Helical Flow Visualization

Time & Place: 4:00 pm, 514 ERB
Speaker: Jake King, UW-Madison, Dept of Physics/CPTC

Tuesday, February 9th, 2010

Time & Place: 12:05 pm, 4274 Chamberlin Hall
Speaker: Clint Sprott, UW-Madison, Dept of Physics/Plasma

“Physics Today” Undergrad Colloquium (Physics 301): Challenges of the Large Hadron Collider

Time & Place: 1:20 pm, 2104 Chamberlin
Speaker: Bruce Mellado, UW Madison Department of Physics

Wednesday, February 10th, 2010

No events scheduled

Thursday, February 11th, 2010

Time & Place: 10:00 am, 5310 Chamberlin
Speaker: Dr. Francois Leonard & Dr. Andy Vance, Sandia National Laboratory, CA

NPAC (Nuclear/Particle/Astro/Cosmo) Forum: Electroweak Baryogenesis in Supersymmetric U(1)’ Models

Time & Place: 4:00 pm, 4274 Chamberlin
Speaker: Tao Liu, University of Chicago

Friday, February 12th, 2010

Theory/Phenomenology Seminar: Boosting BSM Higgs Discovery with Jet Substructure

Time & Place: 2:30 pm, 5280 Chamberlin Hall
Speaker: Adam Martin, Fermilab

Physics Department Colloquium: Magnetohydrodynamic Turbulence

Time & Place: 4:00 pm, 2241 Chamberlin Hall (coffee at 3:30 pm)
Speaker: Stanislav Boldyrev, University of Wisconsin, Department of Physics

Saturday, February 13th, 2010

Wonders of Physics Public Presentations

Time & Place: 1:00 pm, 4 pm, and 7 pm, 2103 Chamberlin Hall
Free tickets are recommended and are available using the On-Line Ticket Form. Alternately, you may call (608) 262-2927 or e-mail wonders@physics.wisc.edu
