

SHINE Medical Technologies Career Talk

Greg Piefer

CEO, SHINE Medical Technologies

Dr. Greg Piefer is the founder of SHINE Medical Technologies and presently serves as its CEO. Before this, he served as the president of Phoenix Nuclear Labs, where he managed the development of high-output neutron sources and high voltage power systems. He formerly served as the Chief Technical Officer to Gillware Inc., a leading data recovery and backup company.

He received a Bachelor's degrees in Physics and Electrical and Computer Engineering from the University of Wisconsin before entering graduate school in the Nuclear Engineering program. In graduate school, he studied nuclear fusion under Dr. Gerald Kulcinski earning his PhD in 2006.
