

# PHYSICS COLLOQUIUM HOLIDAY COLLOQUIUM

## Holiday Colloquium 2008

The Tradition Continues

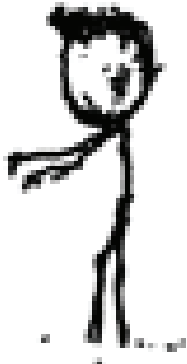

Image courtesy XKCD if you couldn't guess

## The 3rd Years

Ad Hoc Committee on Tomfoolery and Free Food

University of Wisconsin, Madison

Host: Physics Department

### Abstract:

All your favorite jokes are back and funny as ever!

Grad students don't earn much;

Boo Hoo, we work so hard;

our love lives are non-existent;

TAing sucks;

ad hominem attacks against our professors and classmates;

verneration of self destructive behaviour.

Come see loosely physics themed parodies of old movies you never saw!

Enough Pizza and Beer to send your artistic sensibilities into a coma!

Lots of laughs, no surprises!
