### Dr. David A. Smith

GLAST group co-leader  
Centre d'Etudes Nucleaires de  
Bordeaux-Gradignan (CENBG)

Host: Ogelman

**Abstract:** David A. Smith is the GLAST group co-leader at the Centre d'Etudes Nucleaires (Center of Nuclear Studies) de Bordeaux-Gradignan (CENBG), France. He's the spokesman for GLAST for the French National Institute for Particle Physics and Nuclear Physics (IN2P3) of the National Center for Scientific Research (CNRS), and is the co-lead of the "Galactic Sources" Science Working Group within the LAT collaboration. His primary research interest is the study of pulsars through gamma rays.
