

# Department of Physics Colloquium

**Greg Jaczko**

## **The Future of Nuclear Power**

**Safety and Economics**

**W**hat will the future be for nuclear power? The economics, policy and politics of small modular reactors will be discussed. I will discuss whether this technology can make it and revive the United States role as a leader in commercial nuclear power.

**WISCONSIN**

**Friday, October 30, 2015**

3:30 pm | 2241 Chamberlin Hall

Coffee and Cookies at 3:15pm
