

# This Week at Physics

WISCONSIN

Department of Physics Seminar & Colloquium Notices For the Week of November 7<sup>th</sup>

## Monday, November 7<sup>th</sup>

No events scheduled

## Tuesday, November 8<sup>th</sup>

**Chaos & Complex Systems Seminar: The early development of empathy**

**Time & Place:** 12:05 pm, 4274 Chamberlin  
**Speaker:** Carolyn Zahn-Wexler, UW Departments of Psychology & Psychiatry

**Theory Seminar (High Energy/Cosmology): Massive gravitons and enhanced gravitational lensing**

**Time & Place:** 4:00 pm, Chamberlin 5280  
**Speaker:** Mark Wyman, University of Chicago

## Wednesday, November 9<sup>th</sup>

No events scheduled

## Thursday, November 10<sup>th</sup>

**R. G. Herb Condensed Matter Seminar: Universal Dynamic Decoupling and Quantum Walks in Functional Spaces**

**Time & Place:** 10:00 am, 5310 Chamberlin  
**Speaker:** Adilet Imambekov, Rice University

**NPAC (Nuclear/Particle/Astro/Cosmo) Forum: The Non-perturbative Gluon Propagator & The Nucleon and Roper Form Factors in a Contact Interaction.**

**Time & Place:** 2:30 pm, 4274 Chamberlin Hall  
**Speaker:** David Wilson, Argonne National Laboratory

**Graduate Introductory Seminar: Plasma Seminar**

**Time & Place:** 5:30 pm, 2223 Chamberlin Hall  
**Speaker:** Boldyrev, Forest, Sarff, Schnack, Terry, Zweibel

## Friday, November 11<sup>th</sup>

**Cosmology Journal Club: An Informal discussion about a broad variety of arXiv papers related to Cosmology**

**Time & Place:** 12:00 pm, 5242 Chamberlin Hall

**Theory Seminar (High Energy/Cosmology): Higher Spin Gravity in Three Dimensional de Sitter Space**

**Time & Place:** 2:00 pm, 5280 Chamberlin  
**Speaker:** Peter Ouyang, Purdue

**Physics Department Colloquium**  
No Colloquium
