

This Week at Physics

WISCONSIN

Department of Physics Seminar & Colloquium Notices For the Week of December 12th

Monday, December 12th

Plasma Physics (Physics/ECE/NE 922) Seminar TBD

Time & Place: 12:05 pm

Place: 2317 Engineering Hall

Speaker: Gennady Fiksel, University of Rochester

Condensed Matter Theory Group Seminar Magnon spectrum in a spiral magnetic order on the pyrochlore lattice

Time & Place: 4:30 pm

Place: 5310 Chamberlin

Speaker: Eunsong Choi, UW-Madison

Tuesday, December 13th

Chaos & Complex Systems Seminar Dimensional Analysis: Can a trick to help physics students pass exams provide insight into the Nature of the Universe?

Time & Place: 12:05 pm

Place: 4274 Chamberlin

Speaker: Jim Blair, Milton and Edgewood College

Theory Seminar (High Energy/Cosmology) Spotting an invisible Higgs at the 7 TeV LHC

Time & Place: 4:00 pm

Place: 5280 Chamberlin Hall

Speaker: Jessie Shelton, Yale University

Wednesday, December 14th

Department Meeting--Canceled

Thursday, December 15th

Last Day of Class

R. G. Herb Condensed Matter Seminar Orbital and magnetic ordering in ZnV₂O₄

Time & Place: 10:00 am

Place: 5310 Chamberlin

Speaker: Yasuyuki Kato, Los Alamos National Laboratory

Friday, December 16th

No events scheduled

Schedule will resume the
week of January 23, 2012
