

Department of Physics
COLLEGE OF LETTERS & SCIENCES
UNIVERSITY OF WISCONSIN-MADISON

The Admissions Committee in the Department of Physics at the University of Wisconsin-Madison is aware of the continuing disruptions around the world due to the global pandemic and will be making special considerations for the Fall 2022 admissions cycle. We remain dedicated to our tradition of a holistic review of all graduate applications. To reduce the barriers for applicants from all backgrounds and experiences, **the Admissions Committee will NOT require or consider GRE test scores for Fall 2022 applications.** This includes the general GRE and Physics subject GRE exam for the Physics Ph.D. Program and the general GRE exam for the MS Physics-Quantum Computing (MSPQC) Program.

The Fall 2022 graduate application will open in September 2021 as scheduled. The deadline for the Physics Ph.D. Program will remain December 15th. The deadline for the MS Physics-Quantum Computing (MSPQC) will remain March 15th. Any questions about the application process can be directed to physgrad@physics.wisc.edu
