Announcements

COVID-19 Vaccination & Campus Operations Update
The Office of the Chancellor sent out an update this week concerning face mask requirements. See here for further information concerning building access, travel guidelines, and campus policies for COVID-19. As a reminder, University Health Services (UHS) has COVID-19 vaccine appointments available for employees and students. UHS is also now able to offer vaccines to anyone who lives, works or studies in Wisconsin, including friends and family of UW–Madison students and employees. For more information and to schedule a vaccine appointment, click here.

Chicago Quantum Exchange 2021 Annual Report Published
The Chicago Quantum Exchange (CQE) has published its 2021 annual report highlighting significant accomplishments in the CQE and throughout the sector of quantum computing. To view the report, click here.

University Health Services (UHS) Summer Offerings
As enrolled students on campus this summer, all MSPQC students are eligible to utilize services provided by UHS. This summer UHS will be offering group counseling with 4 groups emphasizing the graduate student experience: the Graduate Student Support Group, Graduate Women Support Group, Graduate Students of Color Group, and Dissertator Support Group. UHS is also offering a Grad Resilience series, which are 1-hour lunch discussions for graduate students on Tuesdays at noon CST. Sign up for this series here.

Professional Development & Events

Quantum Computing Tutorial
Date: June 14-18, 2021
The tutorial is designed to provide hands-on experience programming IBM quantum computers using Qiskit and quantum simulators. Participants will learn the basics of how to formulate and solve quantum chemistry and combinatorial optimization problems using Qiskit. For more information, click here and to register, click here (you will need to enter the following password to register: quantumcomputing2021).
Employment Opportunities

MSPQC Career Toolkit
MSPQC Program Coordinator Jackson Kennedy manages and updates the MSPQC Career Toolkit. This is the central hub for professional development and job search opportunities for MSPQC students and is updated frequently. Contact Jackson Kennedy with questions, concerns, and suggestions.

QED-C Student Database
QED-C maintains a database of students obtaining degrees in quantum computing. This database is shared with employers, internship providers, and consortium partners. To add yourself to this database, complete the Student Info Form (password: Students@QED-C) and use Jackson Kennedy (jckennedy3@wisc.edu) as your advisor email.

IonQ: Systems Operation Engineer
IonQ is hiring a Systems Operations Engineer who will be responsible for ensuring high uptime and performance of commercial quantum computers, automating capabilities to optimize system performance, and collaborating with physicists and engineers to build tools to improve existing quantum technology. To apply, click here.

Zapata Computing: Machine Learning Engineer
Zapata Computing is hiring a Machine Learning Engineer who will design, create, test, and maintain a suite of classical machine learning and optimization techniques that clients and researchers can deploy on Orquestra to benchmark against novel hybrid quantum-classical innovations and collaborate with DevOps and Platform Engineers to propose and build tooling, data management, and model management features for the machine learning lifecycle. To apply, click here.

IBM: Quantum Developer
IBM is hiring a Quantum Developer who will be responsible for architecting and implementing robust and well-documented software solutions in Qiskit out of the latest applications developed by the team and for working with clients and partners in ramping-up in quality control. To apply, click here.
