

|                                  | Content  |
|----------------------------------|--|
| <a href="#">Week 1</a><br>9/4    | Course Introduction<br>Electrostatics (22.1-22.2)  |
| <a href="#">Week 2</a><br>9/11   | Electric Force and Electric Field (22.3-22.6)<br>Electric Flux and Gauss' Law (23.1-23.4)      |
| <a href="#">Week 3</a><br>9/18   | Electric Potential (24.1-24.3)<br>Electric Potential (24.4-24.6)                               |
| <a href="#">Week 4</a><br>9/25   | Capacitors (25.1-25.3)<br>Capacitors and Dielectrics (25.4-25.7)                               |
| <a href="#">Week 5</a><br>10/2   | Current and Resistance (26.1-26.6)<br>Direct Current Circuits (27.1-27.5)                      |
| <a href="#">Week 6</a><br>10/9   | Magnetic Force and Magnetic Field (28.1-28.4)<br>Magnetic Force and Magnetic Field (28.5-28.6) |
| <a href="#">Week 7</a><br>10/16  | Sources of Magnetic Fields (29.1-29.4)<br>Sources of Magnetic Fields (29.5-29.6)               |
| <a href="#">Week 8</a><br>10/23  | Faraday's Law (30.1-30.3)<br>Faraday's Law (30.4-30.6)   |
| <a href="#">Week 9</a><br>10/30  | Inductance (31.1-31.6)<br>Alternating Current Circuits (32.1-32.4)                             |
| <a href="#">Week 10</a><br>11/6  | Alternating Current Circuits (32.5-32.8)<br>Electromagnetic Waves (33.1-33.3)                  |
| <a href="#">Week 11</a><br>11/13 | Electromagnetic Waves (33.4-33.7)<br>Reflection and Refraction (34.1-34.7)                     |
| <a href="#">Week 12</a><br>11/20 | Lenses and Mirrors (35.1-35.3)   |

|                         |                             |
|-------------------------|-----------------------------|
| <a href="#">Week 13</a> | Image Formation (35.4-35.6) |
| 11/27                   | Interference (36.1-36.3)    |
| <a href="#">Week 14</a> | Interference (36.4-34.6)    |
| 12/4                    | Diffraction (37.1-37.3)     |
| <a href="#">Week 15</a> | Diffraction (37.4-37.6)     |
| 12/11                   |                             |
